OBJECTIVE

Computer Science undergraduate with hands-on internship experience in Data Analytics and Web Development. Skilled in Python, SQL, OOP, DBMS, DSA, and Machine Learning, with proven experience building EDA pipelines, ML-driven platforms, and interactive dashboards. Seeking a Data Analytics / Data Science role to apply analytical and problem-solving skills to deliver data-driven business impact.

SKILLS

Programming Languages:	Python, SQL
Core Computer Science:	Data Structures & Algorithms (DSA), OOP, DBMS, SDLC
Data Analytics:	Pandas, NumPy, Data Analysis, Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Dashboard Development
Machine Learning:	Scikit-learn, AutoML, Model Evaluation, Feature Importance, Feature Engineering
Web Technologies:	HTML, CSS, JavaScript, REST APIs
Tools & Platforms:	Streamlit, Power BI, Microsoft Excel, Jupyter Notebook, Git, GitHub, VS Code
Soft Skills:	Problem Solving, Analytical Thinking, Communication, Team Collaboration, Adaptability

EDUCATION

B.Tech in Computer Science Engineering <i>Poornima Institute of Engineering & Technology, Jaipur (Raj.) CGPA (SEM 1-5): 9.36/10</i>	2023 - 2027
Higher Secondary Education <i>Maa Bharti Sr. Secondary School, Kota (Raj.)</i>	2021 - 2023

EXPERIENCE

Data Analytics Intern — CodeSpazio Solutions Pvt. Ltd. • Analyzed and visualized data to generate actionable insights and support data-driven decision-making.	June 2026
UI/UX Developer Intern — Euonus IT Pvt. Ltd. • Designed user-friendly wireframes and prototypes to enhance user experience and interface usability.	July 2025
Frontend Developer Intern — Vilsa Technologies Pvt. Ltd. • Developed responsive and interactive web interfaces using modern front-end technologies.	July 2024

PROJECTS

<u>DataSage — Automated EDA & ML Recommendation Platform</u> • Developed an automated platform for EDA, data quality analysis, and data cleaning using Python, Pandas, and Streamlit. • Implemented ML model recommendation, AutoML, and feature importance to streamline data analysis.
<u>LeetCode Profile Analyzer</u> • Created an interactive coding profile analyzer that provides comprehensive performance insights and progress tracking. • Included profile comparison, skill analysis, and interview readiness evaluation to support continuous improvement.
<u>Student Exam Performance Analysis</u> • Analyzed student performance data using Python, Pandas, and EDA to identify key factors affecting exam scores. • Developed an interactive Power BI dashboard to visualize performance trends and generate meaningful academic insights.
